Wellness Line

Wellness Line

The Wellness Line offers healthy and energetic nutrition to individuals on the move, to sport enthusiasts needing that extra bit of energy or to anyone who wants to have a healthy snack on the go.

This line is based on a holistic approach to healthy eating. The health benefits of this completely natural line of products, rich in fibre and protein and low in sugar, allow the consumer to delight in delicious indulgence and, at the same time, reduce the need for processed food snacks.

The products of the Wellness Line range are targeted for schools, hospitals, sports centres, outdoor enthusiasts and in general people concerned with their health, who require the best natural ingredients with proper labelling to meet the needs of a healthy lifestyle.

These handmade products do not contain artificial ingredients or preservatives and are always delivered fresh off of our production line.

*The above items are also manufactured with a thin coating of **70% pure chocolate***
